

EUREM

Start on March 25, 2025 | Online

Over the last 25 years, our international community of European EnergyManagers has grown to more than 7,000 alumni in over 30 countries worldwide. We want to bring our EUREM community together with our new service: EUREM Updates!

For some of our alumni, it has been years since they participated in the EUREM trainings. Energy markets, technologies and legislation change over the years. With our EUREM Updates, we select specific topics and have them presented in 1-2 hours by competent speakers from our EUREM network. Whether it's new technologies like hydrogen, new legislation, new tools or new case studies from our European EnergyManagers.

The host of the EUREM Update comes from the group of EUREM training providers and changes each time. For the first cohort 2025, the webinars will be hosted by EUREM partners from Austria, Germany, Greece, Mexico and Slovenia.

The following events are in preparation:

1. Industrial process heat: Increasing competitiveness by reducing boiler related energy costs and implementation of green boiler technologies

Tuesday, March 25th 2025, 1.00 – 2.15 p.m. CET

Speakers: Daniel Gosse & Jörg Meyer, Bosch Industriekessel GmbH, Gunzenhausen, Germany

Organiser: Nuremberg Chamber of Commerce and Industry, Germany

Registration via Zoom: https://energymanager-eu.zoom.us/meeting/register/76XQ_lYR4uG-zjdQZy7fQ

2. Foundations for Energy Sustainability: Integration of Audits, Energy Management and Green Technologies and Renewable Energy

Wednesday, April 29th 2025, 5.00 – 6.00 p.m. CET

Speakers: *Marisol Oropeza* – Business and Marketing Strategist at matters, Founder of Heat Changers, based in Berlin, Germany | *Heber Parra* – ISO 50001 Consultant | *Pablo Camacho S.* – Sustainable Development and Energy Advisor

Organiser: German-Mexican Chamber of Commerce and Industry, Mexico City

Registration via Zoom: <https://energymanager-eu.zoom.us/meeting/register/HSml1KfMTkGxqFTaF3i6iw>

3. Identification of energy and flexibility measures in buildings and industry

Wednesday, June 11th 2025, 1.00 – 2.00 p.m. CET

Speakers: *Stane Merše, Boris Sucic, Jožef Stefan Institute* | *Klemen Peter Kosovinc, Kolektor sETup d.o.o.*

Organiser: Jozef Stefan Institute (JSI), Ljubljana, Slovenia

Registration link: <https://forms.gle/vhW6zHA72mFcMQZi9>

4. Identify and monetise non-energy benefits of energy audits

3rd quarter 2025

Organiser: Austrian Federal Economic Chamber, Vienna, Austria

5. New business models – Flexibilization in the energy market

4th quarter 2025

Organiser: German Hellenic Chamber of Commerce and Industry Athens | Thessloniki, Greece

Participation

Because of our unique internationality, the EUREM Updates are being conducted online and in English language.

EUREM Updates are free of charge. If you participate in the webinar, you'll receive "EUREM Credit Points (ECP)" which you can use to prove your further qualification. For each teaching unit (45 minutes) you'll receive one ECP. We hope you'll enjoy our EUREM Updates.

Only qualified European EnergyManagers can collect ECP. You may apply for your ECP at info@energymanager.eu
